The future is electric

Fuelled by legislative intent and proactive policies, India has a lifetime opportunity to make an impact for a sustainable tomorrow.

ITEC (International Transportation Electrification Conference) is an enabler to move the conventional mobility industry towards electrified, sustainable mobility.

ITEC INDIA 2019 will bring together key stakeholders from Industries as well as academia and research, to discuss the future of electric vehicles and PHEV, including the key drivers and the roadmap towards a sustainable future.
